

Emergency Request for Assistance in India

Dear Partners and Friends,

We are so grateful to all our ministry partners who faithfully pray and give. Your investment in our lives and in the Kingdom serves as a constant reminder to us of God's incredible grace.

Since nine years we are feeding, clothing, and educating approximately 250 poor and destitute children, including orphans, are cared for in the three "Light Of Love" Children's homes in four locations in three states of South India.

Each children home, we have 83 children living in our 3 Children's Homes. These children were at high risk in the slum and had to be removed to the suburbs of South India. There they receive shelter, food, clothing, and an English medium education within a loving Christian environment. Suggested sponsorship for these children is per month or \$35 per month. It costs more to help these children because they are entirely dependent on the ministry.

If it were not for the children's home, hundreds of India's children would still be living on the streets with no hope of a life free of danger, starvation, and often begging on the streets or slavery.

Now more children will be coming before the start of the school year on June 15th ... a total of Ninety seven (97) extra children to provide for!

Parents who cannot, for a variety of reasons, care for their own children, walked away leaving them in the hands of someone they know will love them and give them an opportunity to grow to adulthood in a Christian environment.

This is the reality our family in India is facing right now. There are no beds. Proper accommodation or a permanent building. An already tight budget is suddenly stretched beyond its limit. The children are homeless and brought nothing with them but a sack full of emotional baggage. They need food, a bed and a blanket, school uniforms and supplies, shoes, toothbrushes and personal hygiene items, and most of all, to know someone cares.

We have an emergency request for assistance to "Light of Love" a project of God's Kingdom Gospel Prayer ministries while plans are in the works to build a permanent facility, these children cannot wait--they need our help right now. From what we've learned, we will have fourteen children by mid-week who need to be enrolled in school and prepared to live as a family with our family in India. They are more than willing to take on this responsibility while we work on the planning and funding of more permanent arrangements.

With your Sponsorship you can prepare the way of lifting the poor and needy, offering hope for a brighter future for these children for the glory of our Lord Jesus Christ.

Light of Love

Children Emergency Needs

Here are the details of what will be needed to Light of Love the orphanage in order to offer immediate care for 97 children. We have cut the budget down as far as possible in order to find a way to support this work immediately.

			Total
